

## NDICI – Human Rights and Democracy-Election Observation Missions

Core indicators monitor the results achieved in a specific sector or area of FPI intervention – below a list of core impact, outcome and output indicators for EOM. This list is neither fixed nor exhaustive, and is continuously updated as further feedback from programme/project implementation is gathered.

### Impact indicators

- Worldwide Governance Indicator (voice & accountability dimension) in countries where an EOM has been organised.  
Data source: The World Bank

### Outcome indicator

- Number of electoral processes and democratic cycles supported, observed, and followed by means of Election Observation Missions (fully-fledged Electoral Observation Missions, Election Experts Missions, Election Follow-up Missions, complementary activities).

### Output indicators

- Number of observers and Core Team analysts deployed and % of which are women;
- Number of trained CT analysts and Observers and % of which are women;
- Number of persons reached via social media (related to EOMs).
